Academic Policies

General Assignment Guidelines

Please see the [MCS-Horizon](#) Format Guide for assignment submission, grammar, and formatting guidelines.

Late Assignments and Extensions

Students are expected to submit work by the assigned due dates, as part of their development of the Leadership and Administration competency. To submit extension requests, students must submit the *Assignment Extension Request Form* on Populi and *before the due date*. Professors may grant extensions in the case of extenuating circumstances, such as significant illness or a family emergency. Furthermore, no extensions will be granted beyond the final day of a term or semester unless approval is granted by the Associate Academic Dean (MCS) or Assistant Academic Dean (Horizon).

Late submissions will be tracked across each student's program. If a student incurs multiple instances of late submissions, it will result in academic discipline, such as required tutoring, academic probation, failure of the course, or failure to qualify for graduation. Similar to standard human resource employment practices, students will receive warnings and conditions with increasing severity of academic discipline. If one assignment is submitted more than five days late, the student will fail the course.

Assignment Completion

Professors usually will not accept assignments that have not been completed according to the instructions given in the syllabus. If a professor informs a student that a submitted assignment is incomplete, the student will be given the opportunity to complete and resubmit the assignment quickly. If this is not possible, the assignment will be regarded as submitted late.

Assignment Revisions

Students can generally submit up to two revisions for each assignment, although a professor may accept more revisions if the professor determines the student is addressing all of the professor's instructions and making significant progress toward achieving competency.

MCS-Horizon College Assessment of Student Work

The goal of courses is to help students develop their competency, not earn letter grades. Assignments are the means by which instructors evaluate development of competency by assessing learning outcomes as outlined in the syllabus and each assignment rubric. Once a student's assignment has met all competency requirements, the professor will assign a grade for that assignment. Likewise, a final course grade is not calculated until the end of the course. Students pass a course (with a B- or higher) only after they have demonstrated that they have *met or exceeded all competency requirements* for that course and, therefore, only after they have passed all assignments.

MCS-Horizon CBE Scale		Descriptor	Letter Grade	Grade Point	U of S Equivalency
E	Exceeding expectations	Student demonstrated exceptional achievement of the learning outcomes.	A+	4.0	90-100
		Student demonstrated excellent achievement of the learning outcomes.	A	4.0	85-89
			A-	3.7	80-84
M	Meeting expectations	Student demonstrated good achievement of all learning outcomes.	B+	3.3	77-79
			B	3.0	73-76
			B-	2.7	70-72

If the student does not meet all competency requirements in a course and, therefore, does not pass all the assignments in a course, the course will not be sufficient to fulfill their program requirements at MCS-Horizon. Nevertheless, for transferability purposes, the student will receive a letter grade of C+ or below according to the scale below.

BTM	Beginning to meet expectations	Student was beginning to meet one or more learning outcomes.	C+	2.3	67-69
			C	2.0	63-66
			C-	1.7	60-62
NYM	Not yet meeting expectations	Student made insufficient progress toward meeting learning outcomes.	D+	1.3	57-59
			D	1.0	53-56
			D-	0.7	50-52
			F	0.0	0-49

Academic Integrity

Students learn best when practicing academic integrity. A lack of integrity is displayed in acts such as deception, abuse of confidentiality, cheating, inappropriate collaboration, or plagiarism. Plagiarism occurs when a student presents the words or ideas of another person or an artificial intelligence (AI) tool in such a way as to give others the impression that it is their own words or ideas. In academic writing, there should be no doubt which words or ideas are the student's and which are drawn from other sources or AI. Students are expected to submit their own original work and give due recognition to sources from which all substantial phrases, sentences or even ideas are drawn. Note also that you may not submit work done in one course to satisfy the requirements of another course (unless both instructors agree beforehand to accept such work). See [here](#) for examples of plagiarism and further guidelines in the Student Handbook.

Accessible Learning Services Information

MCS-Horizon aims to provide an accessible learning environment for all our students. If you would benefit from learning accommodations due to temporary or ongoing physical or mental health conditions or learning disabilities, please contact us as soon as possible to schedule a conversation. In all cases we ask that you provide current documentation of the disability or condition you wish to disclose. MCS-Horizon takes appropriate care to ensure confidentiality about any such disclosures. For more information, contact Wendy Holmes, MCS's Director of Academic Success (wendy.holmes@mcs.edu), or Richelle Bekkattla, Horizon's Library Technician and Academic Accommodations Coordinator (library@horizon.edu).

Class Attendance

Students should attend all classes in order to facilitate competency development. Students are expected to be present through the delivery method that they registered for, either on campus or through livestreaming with their camera on. A student must be present for the full duration of a class period in order to be registered as present for the class. In the case of illness or other unforeseen circumstances, students may miss the equivalent of six hours of class (e.g., one day of a module course or two three-hours classes) without academic penalty. Students who are absent for more than this will automatically fail the course. Students wishing to be exempted from this policy due to extenuating circumstances may make an academic appeal, where they will need to document and verify those circumstances. Students who miss a class are responsible to get missed notes or handouts from another student, rather than from the professor.

Livestreaming Etiquette

Students taking the course through livestreaming are required to indicate this during their course registration. While livestreaming access is available for on-campus students who are unable to attend class due to illness, on-campus students are expected to attend class in person following the class attendance policy.

If attending class online via livestream, in order to be marked present for class, you must keep your camera on and stay present and attentive throughout the class session, extending the gift of engagement. Access your class with a computer (preferably) or tablet, not a cell phone. Arrive to class on time, and dress as you would if you were attending class on campus. Join the class from a quiet space with minimal background noise and mute your microphone until you wish to speak to the class.

Use of Technology

MCS-Horizon encourages the use of electronic devices in the classroom to enhance learning. Careful consideration must be given to privacy issues, copyrighted materials, and the general care and concern for others. Please respect the following classroom policies:

- Please use online access for course learning only. This is a matter of respect for the instructor's teaching, your own learning, and fellow students who may be distracted by other uses.
- Students should secure permission from the instructor to record any teaching material. This includes PowerPoint slides, white board illustrations, notes, and any form of audio or video.
- Student feedback is a valuable input for course improvements. Please resolve any classroom grievance about the instructor or course with the instructor personally, through the grievance procedures, or the Populi-based course evaluations. It is inappropriate to air classroom grievances on a social media platform.
- When instructors use recording mechanisms in the classroom, recorded materials will be used for the sole purpose of instruction and cannot be released to any social media outlet without the written consent of the students whose images have been recorded.
- In general, it is not acceptable to share photographs or videos of students in the classroom setting without permission from those whose images appear in such media.
